SAFER Systems Announces New Executive Team

Camarillo, Calif. – March 10, 2006 – SAFER Systems’ Board of Directors has elected **Ernest J. Gilbert** as President of the company effective March 6. Mr. Gilbert, who was Senior Vice President, succeeds Mr. Robert Elders, who has successfully led the company since September of 2003.

SAFER also announced that **Dr. Shahryar Khajehnajafi** will serve as the Vice President for SAFER’s Camarillo operation. Dr. Khajehnajafi was previously Director of Engineering and Chief Scientist. He has created and implemented complex modeling solutions for SAFER for more than 15 years. Dr. Khajehnajafi is co-inventor of the company’s release rate estimation technology.

“Ernie has more than proven his ability to lead and has a keen understanding of the needs of this industry,” stated Elders. Mr. Gilbert has a Bachelor’s degree from National University in Computer Science and more than 20 years experience with software and emergency response solutions. He has implemented more than 150 systems worldwide. In addition, he serves on the board of the Simi Sunrise Rotary Club.

“I’m genuinely excited to lead SAFER in this next chapter of what has already been an impressive era,” notes Gilbert. “I feel very fortunate to have worked with Bob Elders and to continue working from the foundation he has built since joining SAFER.”

2006 marks an important milestone for SAFER with the 25-year anniversary of its leading product, **SAFER Real-Time®**. The company has developed a rich history and deep experience base serving the chemical emergency response industry with a variety of innovative Real-Time modeling tools. During the second quarter, SAFER will introduce modeling for particulates and chemical weapons.
